NEXUSNET, ITC, YRI & DC grants

This is the 10th Call for applications for Inclusive Target Countries Conference Grants (ITC), Young Researchers and Innovators Conference Grants (YRI) and Dissemination & Communication Grants (DCG) funded by the COST Action CA20138 [“Network on water-energy-food nexus for a low-carbon economy in Europe and beyond – NexusNet”](#).

These calls for applications aim at:

- a) supporting participants from Inclusive Target Countries (ITC) to attend a high-level conference not organized nor co-organized by the NexusNet,
- b) supporting young researchers, innovators, and PhD students to attend international conferences, not organised by the Action,
- c) encourage grantees to participate in high-level conferences, not organised by the Action, and increase the visibility and awareness of NexusNet.

ITC, YRI & DC Grants offer reimbursement for travelling, accommodation and subsistence expenses, registration fees, printing of scientific poster and overall effort.

The maximum grant amount is **1,500€** per grantee for face-to-face conferences and **500€** for virtual conferences.

Each application will be assessed independently by the Grant Awarding Committee of the Action, and an evaluation score will be given considering (i) the background of the conference, the sessions and the scientific issues that will be addressed in relation to the Action's strategic priorities and objectives as defined in the [Action's Memorandum of Understanding \(MoU\)](#), and (ii) the degree to which the proposed paper/poster/panel complements or contributes to the Action strategic priorities and objectives as defined in the MoU.

NexusNet aims to empower collaborations between EU and international researchers and stakeholders, synthesize the existing empirical Nexus research and produce an intellectual toolkit, demonstrating a clear link to improved resource management and governance outcomes that underlie the value of Nexus.
